**The Albuquerque Creamery**

Is now thoroughly established in their new plant, which has every facility to enable us to give you even a better piece of goods than in the past. We have been somewhat handicapped, however, due to the fact, that we were compelled to use our old cooler which is entirely too small to handle the volume of business which we are now doing, while our ice machine was being installed. For this reason, it was impossible for us to rotate our goods, and in case you have received any during the past month, which was not up to the standard of our goods, we ask that you notify your grocer, who has been authorized by us to reimburse you. We feel sure that in the future you will have no further trouble from this source.

Our silver chests have all been distributed among the house wives of Albuquerque, and we are now offering another premium, which we believe to be as attractive, if not more so, as our former.

We will give for the complete word SUNSHINE, the letters to be inclosed in each pound package, as before, a beautiful
